

Operation Flinders fundraiser bike ride

September 2020

The Tranmere Bowling Club is a proud supporter of Operation Flinders in its quest to help young people rebuild confidence and people skills through positive experience and achievement.

Since May 2017, club members have been 'donating' gold coins for wrong biases and other misdemeanours during social bowls activities as well as simply making voluntary donations.

The funds support youth from eastern suburb schools to participate in group expeditions in the northern Flinders Ranges.

To date, donations of \$4700 have been provided, supporting two participants and well on the way to a third.

The image shown here is of the staff of Operation Flinders on a recent fund-raising bike ride from Adelaide to the property in the Flinders - this being taken on the second day in front of the Wirrabara silos.

What a terrific image. **Jonathon Robran**, our liaison at Operation Flinders, can be seen second from the left at the back.
