

Skipper Self-Assessment Template

As part of the recent Player Development Program undertaken by our club, participants discussed what they saw as the attributes of an 'ideal' skipper.

The information generated has been collated into a Skipper Self-Assessment Template.

Members, especially skippers and aspiring skippers, may like to assess themselves against the various attributes.

Some may also like to invite their team members to provide an assessment.

It is entirely up to each person as to how, if at all, they undertake this self-assessment.

The information is for personal use only.

The image shows two versions of the 'Skipper Self-Assessment Template'. The left version is a blank template with a header section containing 'DATE', 'RATING SCALE' (with 'OK' and 'Good' indicators), and 'COMMENTS'. Below this is a table with columns for 'OVERALL RATING', 'Skipper Self-Assessment', and 'Comments'. The right version is a completed example, dated '9-Dec-2022', with a 'New York' location. It features a 'Skipper Self-Assessment' section with various attributes like 'Goal Achievement', 'Team Motivation', and 'Communication', each with a rating box (OK/Good) and a 'Comments' column. A 'Personal Ranking Standard' section is also present at the bottom.

It includes an example of how the template might be used to identify strengths to build on and areas for improvement to develop, with a plan of action to do just that.
