

NEWSLETTER FROM THE GENERAL COMMITTEE

Hello to all Club members

As we head towards the end of 2024 your General Committee is involved in many items or events, and we wish to highlight some as we ramp up towards our Centenary Year.

The front garden refurbishment is basically completed and has added color and texture to our King's Grove entrance. The driveway, paths and a more user-friendly ramp are finished; the many compliments on our improved street appeal by you the members, our neighbors and visitors are testament of the hard work put in by all involved in these projects to date.

Another centenary project was the upgrading of our solar system with additional panels and the inclusion of the battery storage. The work was completed with the aid of a Small Business Energy Efficiency Grant so the club will move into the next 100 years to be self-sufficient power wise within a short period of time.

The Tranmere Tennis Club will be hosting the Australian Seniors Tennis Competition at our venue from Monday, 6th to Friday 10th January 2025.

The competition will be from 8.00am to approximately 6.00pm each day. This is a real complement to our club; management and its members so come along and see some great tennis during those timeslots. The tennis members are working hard towards presenting the club and environments at their best.

Additionally, we have added a glass balustrade to the verandah on the tennis side to give uninterrupted views of the games.

The framework for the Centenary Mural will be constructed and affixed in time for our 25 January centenary celebrations. It will be a special day when both the Centenary Mural and our new club flag will be presented to everyone for the first time.

Invitations to special guests and members have been circulated through our communication avenues with many acceptances at the time of writing. Members had the opportunity to view the Centenary polo shirt and pre order. The club will take delivery and distribute members' polo shirts in mid-January. Members are encouraged to wear their new shirts to this event as part of our celebration.

Early in the new year the corrugated iron fence and concrete base on our eastern boundary adjacent to B green will be painted to brighten up our surrounds. This will allow us to add sponsors' signage for more impact.

Finally on behalf of your General Committee I would like to wish you all a Happy Christmas and New Year, continue to enjoy your facilities and most of all, your chosen sport.

GREG FERRIS

General President
21 December 2024
